Do You Have Yours?

“Float to the Finish”

The First Annual “Float to the Finish” will take place as Main Street’s First Friday Event on Friday, August 7, 2009 from 6-9 PM on the riverfront lawn of the judicial building.

Logan Street Bridge will be closed and then hundreds of weighted and numbered rubber ducks will be released via canoe on the White River at 7:30 PM and float down the White River to cross the finish line under Logan Street Bridge. A Dell laptop will be awarded to the owner of the first duck to cross the finish line. In addition, there will be 49+ other prizes awarded to the owners of runner-up ducks crossing the finish line.

There will be plenty of activities for everyone—music, bounce house, food vendors, face painting, picture taking plus Jazz Squared will begin on the lawn at 7 PM.

Still haven’t had a chance to purchase your duck for the “Float to the Finish?” Stop by the Main Street office or hope that there are some still available the night of the event (the number of ducks is limited), and for \$5 you can purchase your racing duck, and you may be the winner!

These two ducks are resting for the big race! One will be the winner! Make sure that you are there on Friday, August 7 to cheer your duck to the finish line.

A Success: The Street Dance!

With gorgeous weather, thousands of people arrived on the streets of Downtown Noblesville to enjoy an evening of fun and entertainment. The Kids' Zone was a hub of activity with children of all ages playing games, earning tickets, and then turning them in at the Prize Tent for free prizes. Others sat and enjoyed the music while others danced. With food vendors galore, everyone had the pick of their favorite kind of food. It was a great evening!

Thank you to all of our sponsors and all of our volunteers. This great event would never happen without you!

Stop by the Farmers' Market during any Saturday in August and receive \$1 off your purchase by using the Farmers' Market Buck. This offer is only good for Noblesville Main Street Members and can't be duplicated.
